PREVIOUS TRAINING

Have you previously participated in a Modern Apprenticeship (MA) programme and achieved/part achieved a Level 2 or Level 3 qualification?

Yes ☐ No ☐

If 'Yes' please give a brief description

ENTRY ASSESSMENT

You will need to sit the entry assessment prior to starting the training programme. This will provide an indication of your suitability and ability to achieve the SVQ Level 3 in Electrical Installation. The assessment will involve numeracy, technical comprehension and a colour vision assessment. Helpful material 'An Introduction to Mathematics' can be found at <https://goo.gl/mzttd1>

SECTT will assist and support any needs you may have (e.g. dyslexia, learning difficulties, etc.) and where necessary SECTT will make suitable arrangements in a sympathetic and confidential manner. The information relating to such support will not affect your application for the SJIB Adult Training Scheme.

SECTT believe in equal opportunities and may need to tailor the assessment to meet the needs of the individual

Due to the nature of the Adult Training Scheme, applicants must have experience working within the electrical contracting industry. This should include knowledge of installation techniques, power and lighting circuits along with a basic understanding of IET regulations & building standards in order that you keep pace with the course. The below table should be completed with details of experience in each of the areas; this table will be checked by the SECTT Training & Development Manager and may affect approval onto the scheme.
